

Tabs3 Software Introduces Kurent – Billing for Solo and Small Law Firms

Lincoln, NE – January 30, 2018 – Software Technology, LLC, the maker of Tabs3 software, is excited to announce the release of a new cloud billing program, [Kurent](#). Kurent is an easy to use program designed for solo and small law firms who typically don't use and don't want to pay for elaborate practice management features. The team that made Tabs3, the most award winning billing software in the legal industry, used their more than 35 years of knowledge and experience to build a product that is tailored to the billing needs of solo and small law firms.

"We know that many solo and small firms struggle to track their time and send out invoices using Word and Excel, or QuickBooks," said Dan Berlin, President and CEO of Software Technology, LLC. "Every screen and dashboard in Kurent is designed with them in mind so that the process of getting paid for legal work can be as easy as possible."

Kurent provides solo and small law firms with an integrated, seamless way to track their time, create invoices and record payments. It includes dashboards that provide valuable insight into the status of work done, invoices sent and collected – all through easy to understand charts and graphs. Attorneys can email invoices to clients in Kurent and get paid online with LawPay. Kurent also makes it easy to take care of your back office needs by integrating with QuickBooks online. Backed by decades of legal billing software experience, Kurent delivers an intuitive design and reliability that the legal industry has come to expect from a Tabs3 product.
