## Purpose of Guide

This **General Ledger Guide** covers the process of data entry and routine tasks such as creating journal entries, creating deposits, and reconciling bank accounts, as well as information on various utilities available in Tabs3 General Ledger (GL).

The **Administrator Guide** includes information on setting up the startup files, including GL Clients, journals, departments, and the Chart of Accounts.

The **Integration Guide** covers information related to integration between Tabs3 Software applications and provides initial configuration information. Additional information related to integration is available throughout the Tabs3 Software documentation, particularly the built-in help feature in the software itself.

All guides are available on our website at:

**[Tabs3.com/support/docs.html](http://Tabs3.com/support/docs.html)**

## Introduction

Tabs3 General Ledger (GL) is a comprehensive general ledger system based on a double-entry accounting system. User-defined chart of accounts and financial statement formats allow you to use your existing chart of accounts. Tabs3 General Ledger supports multiple departments (profit centers), which allows each financial statement and report to be printed by individual department or as a comprehensive statement of all departments. Reports include detail journals, general ledger, trial balance, detail and summary balance sheets, plus detail and summary income statements.

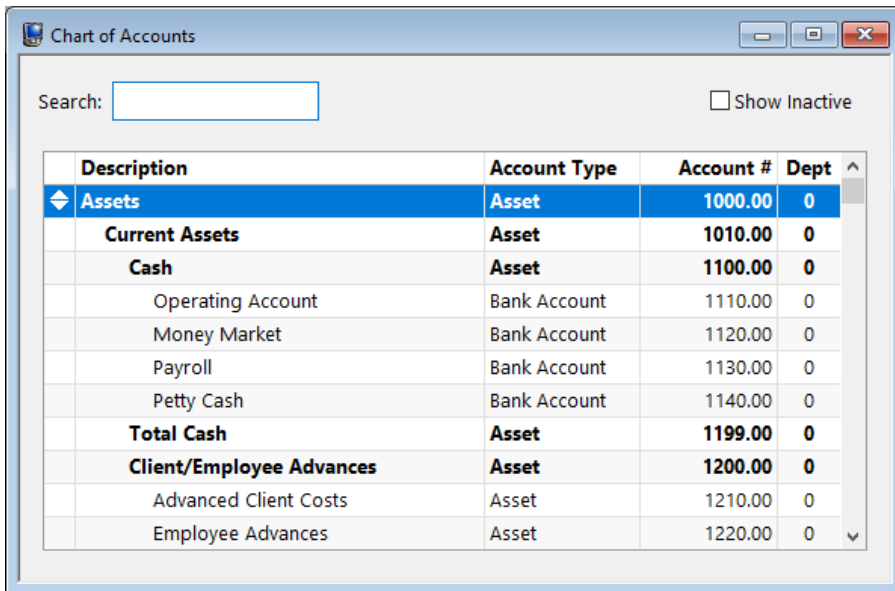

# Chart of Accounts

**Menu:** [File](#) | [Open](#) | [Chart of Accounts](#)

**Home:** [All Actions](#) | [Chart of Accounts](#) | [Chart of Accounts](#)

**Quick Launch:** [Chart of Accounts](#)

The *Chart of Accounts* is the foundation of any general ledger system. The Chart of Accounts is a listing of the general ledger accounts for a business entity that includes account name and number.

The screenshot shows a window titled "Chart of Accounts". At the top, there is a search bar and a checkbox labeled "Show Inactive". Below this is a table with four columns: Description, Account Type, Account #, and Dept. The table lists various asset accounts, including Current Assets, Cash, and Client/Employee Advances.

Description	Account Type	Account #	Dept
<b>Assets</b>	<b>Asset</b>	<b>1000.00</b>	<b>0</b>
<b>Current Assets</b>	<b>Asset</b>	<b>1010.00</b>	<b>0</b>
<b>Cash</b>	<b>Asset</b>	<b>1100.00</b>	<b>0</b>
Operating Account	Bank Account	1110.00	0
Money Market	Bank Account	1120.00	0
Payroll	Bank Account	1130.00	0
Petty Cash	Bank Account	1140.00	0
<b>Total Cash</b>	<b>Asset</b>	<b>1199.00</b>	<b>0</b>
<b>Client/Employee Advances</b>	<b>Asset</b>	<b>1200.00</b>	<b>0</b>
Advanced Client Costs	Asset	1210.00	0
Employee Advances	Asset	1220.00	0

Figure 1, Chart of Accounts window

As journal entries are posted to accounts, account balances are established. These balances make up the figures used in reports such as the Income Statement and Balance Sheet.

**More Info:** Detailed information on setting up the Chart of Accounts and establishing balances can be found in the [Administrator Guide](#).

# Journal Entries

**Menu:** [File](#) | [Open](#) | [Journal Entries](#)  
**Home:** [All Actions](#) | [Journal Entries](#) | [Journal Entries](#)  
**Quick Launch:** [Journal Entries](#)

Financial information in Tabs3 General Ledger (GL) is tracked via the use of *journal entries*. Journal entries maintain a record of activity for the various accounts defined in the Chart of Accounts. Journal entries can be added manually or via software integration with other Tabs3 Software applications. The Journal Entries window is composed of two tabs: the **Transaction** tab and the **Batch** tab.

Journal Entries window showing a simple transaction. The window has two tabs: Transaction and Batch. The Transaction tab is active. It shows a transaction number of 217 and a date of 07/04/2024 (Thursday). Below this is a table with columns: Account, Debit, Credit, Description, Type, Check #, Jrnl Reference, and R. The table contains two entries: 1110.00 D - Operating Account (Debit 25,000.00, Description Referral Fee, Type Check, Check # 18542, Jrnl Reference 1, R C) and 4900.00 C - Miscellaneous Income (Credit 25,000.00, Description Referral Fee, Type Check, Check # 18542, Jrnl Reference 1, R). Below the table, the Subtotal by section shows Debits of 25,000.00, Credits of 25,000.00, and a Difference of 0.00. The Subtotal for Check #: 18542 is also shown. At the bottom, the Journal Entry Details section shows Source: Manual, User ID: MLJ, and Date Entered: 08/22/2024.

Figure 2, Journal Entries - Simple Transaction

## Transactions

The **Transaction** tab is used to add, change, or delete journal entries. Journal entries are grouped into *transactions*. A transaction is a set of balanced journal entries that are related to one another. GL requires that debits and credits for a transaction be in balance before it can be saved.

Transactions can vary in complexity. Figure 2 shows a simple journal entry with a single debit and a single credit entry, whereas Figure 3 shows a complex transaction with a single debit and multiple credit entries. You will encounter various combinations of the two during everyday journal entry.

The screenshot shows the 'Journal Entries' window with the following details:

- Transaction:** Batch
- Trans #:** 221
- Date:** 08/13/2024 Tuesday

Account	Debit	Credit	Description	Type	Check #	Jrnl	Reference	R
1110.00 D - Operating Account	80,000.00		Payment	Credit Card	0	2	415.00	R
4100.01 C - Fee Income - MLJ		20,271.30	Payment	Credit Card	0	2	415.00	
4100.02 C - Fee Income - PAM		19,213.93	Payment	Credit Card	0	2	415.00	
4100.03 C - Fee Income - RPA		3,796.44	Payment	Credit Card	0	2	415.00	
4100.04 C - Fee Income - ROB		21,114.99	Payment	Credit Card	0	2	415.00	
4100.05 C - Fee Income - KIM		1,529.12	Payment	Credit Card	0	2	415.00	
4100.06 C - Fee Income - DHB		1,413.43	Payment	Credit Card	0	2	415.00	
<b>Balanced</b>	<b>80,000.00</b>	<b>80,000.00</b>

Journal Entry Details

Source: Billing User ID: CATHY Date Entered: 08/22/2024

Figure 3, Journal Entries - Complex Transaction

Journal entries consist of several fields, many of which are self-explanatory. Fields that require further explanation are listed below.

**More Info:** Detailed information on all fields can be found in GL Help.

### Trans #

The **Trans #** field contains a unique identifier assigned to each transaction. Entering an existing transaction number will load all journal entries for that transaction, whereas pressing Enter in this field when adding a new transaction will automatically assign a new **Trans #**.

### Type

The **Type** field can be used when entering receipt and disbursement journal entries to classify the type of transaction taking place. Examples of the transaction types available to choose from are cash, check, client funds, credit card, EFT, other, and none.

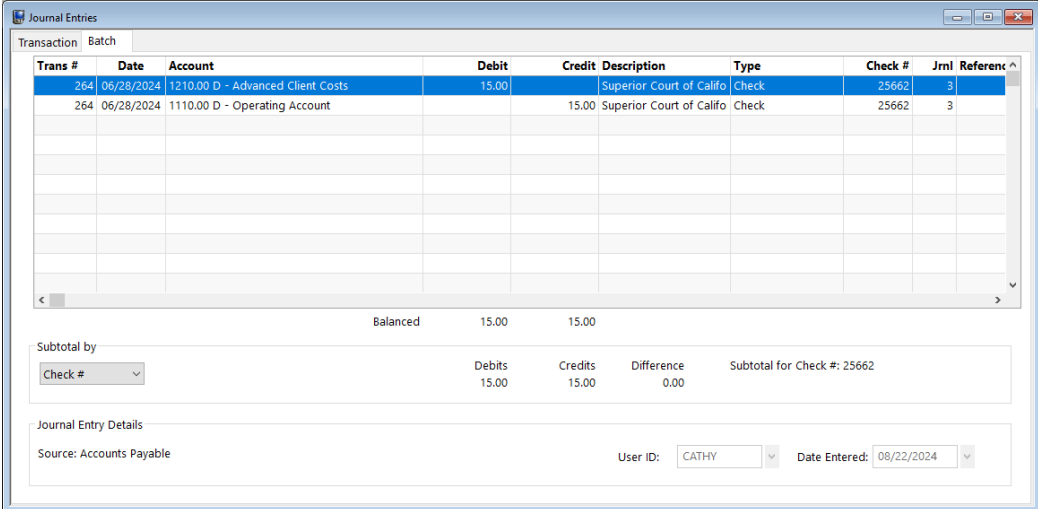

<b>Reference</b>	The <b>Reference</b> field is an optional field used for categorizing journal entries. For example, journal entries for Tabs3 Billing payments will automatically contain the Client ID for which the payment was entered.
<b>R (status)</b>	The <b>Status</b> field, displayed as a column heading of <b>R</b> on the <b>Transactions</b> tab, indicates the status of a reconciled entry. The contents of the field vary depending on the entry's status. A blank field indicates the journal entry has not been cleared or reconciled. A letter <b>C</b> indicates that the journal entry has been cleared on a reconciliation but not yet reconciled. An <b>R</b> indicates that the journal entry has been reconciled.
<b>Difference</b>	The <b>Difference</b> field in the Subtotal section keeps a running balance of total debits and credits entered for a transaction. When a transaction is in balance, the <b>Difference</b> will show "0.00". If a transaction is out of balance, the <b>Difference</b> will show the amount out of balance. A transaction must have balanced debit and credit entries with a <b>Difference</b> of 0.00 in order to be saved.
<b>Subtotal</b>	The <b>Subtotal by</b> section displays journal entry subtotals for transactions or batches. Transactions and batches can be subtotaled using one of several options, such as <b>Check #</b> , <b>Description</b> , or <b>Reference</b> . A subtotal for both debits and credits is displayed, as well as the <b>Difference</b> between debits and credits for the selected subtotal type. A transaction must have balanced debit and credit entries with a <b>Difference</b> of 0.00 in order to be saved.
<b>Source</b>	The <b>Source</b> field indicates the origin of a journal entry. The following legend lists each possible source:

Transaction Source	Journal Entry Origin	Report Character
Manual	Tabs3 General Ledger (GL)	M
Accounts Payable	Tabs3 Accounts Payable (AP)	A
Billing	Tabs3 Billing Software	B
Trust Accounting	Tabs3 Trust Accounting (Trust)	T
Recurring Entry	Tabs3 General Ledger	R
Payroll	Peninsula Software's PenSoft Payroll or the GL Import Journal Entries utility	P

## Batches

The **Batch** tab provides a read-only history of the selected transaction along with any other transactions associated with the specified transaction. Typically, related transactions are generated via integration with Tabs3 Billing, Trust, or AP. For example, the allocation of a payment in Tabs3 Billing creates a set of journal entries transferring money to the pre-configured general ledger accounts. As another example, voiding a check in AP posts the voided check journal entries in a new transaction but in the same batch as the journal entries created for the check. You can also add new transactions to the **Batch** tab manually by clicking  or pressing Ctrl+N.

Trans #	Date	Account	Debit	Credit	Description	Type	Check #	Jnl Reference
264	06/28/2024	1210.00 D - Advanced Client Costs	15.00		Superior Court of Califo	Check	25662	3
264	06/28/2024	1110.00 D - Operating Account		15.00	Superior Court of Califo	Check	25662	3

Subtotal by

Check #	Debits	Credits	Difference	Subtotal for Check #:
25662	15.00	15.00	0.00	

Journal Entry Details

Source: Accounts Payable      User ID: CATHY      Date Entered: 08/22/2024

Figure 4, Journal Entries - **Batch** tab

Double-clicking a journal entry from the **Batch** tab, or selecting a journal entry and clicking the **Transaction** tab, will open that transaction. All journal entries that are part of the selected transaction will be shown.

► **To add a journal entry**

1. In the Quick Launch, search for and select, "Journal Entries."
2. Press the Tab key. GL automatically assigns the next available transaction number.
3. Enter the **Date**. (*Note: All journal entries in a transaction must use the same date.*)
4. Enter the desired information for the journal entry.
  - a. In the **Account** field, enter the **Account #** or select one from the drop-down list.
  - b. In the **Debit** field or **Credit** field, enter the amount.
  - c. Enter a **Description**.
  - d. In the **Type** field, select the appropriate type of transaction.
  - e. Enter a **Check #**, if appropriate.
  - f. Select the **Jrnl** number.
  - g. Enter a **Reference**, if appropriate.
5. Press the Enter key or the Tab key to move to the next line.
6. Repeat step 4 for each new journal entry.

**Notes:** Once the first journal entry for a data entry session has been entered, the **Description**, **Type**, **Check #**, **Jrnl**, and **Reference** fields for subsequent journal entries will be the same as the previous journal entry.

After the first journal entry row has been added to the transaction, each subsequent journal entry will automatically default to the amount required to balance the transaction. For example, if the first journal entry has 250.00 in the Debit column, the next row will automatically default to 250.00 in the Credit column. If you change the amount for the second journal entry from 250.00 to 150.00, then the next row will automatically default to 100.00 in the Credit column.

7. Click  to save the new journal entry.

**More Info:** A complete list of all features that create transactions and batches can be found in GL Help by entering "Batch" in the **Index** tab and selecting the "How Assigned" topic.

## Journal Entry Verification List

After closing the **Journal Entries** window, you will be prompted to print a **Journal Entry Verification List**. This Verification List provides a record of all transactions added, changed, or deleted during a data entry session. This makes it easy to keep a review of all journal entries posted during the data entry session.

## Account Information

**Menu:** [File](#) | [Open](#) | [Account Information](#)  
**Home:** [All Actions](#) | [Chart of Accounts](#) | [Account Information](#)  
**Quick Launch:** [Account Information](#)

The **Account Information** window is used to view balances, view and set budget figures, and view journal entries for a specific time frame. The **Period Selection** options allow you to display three fiscal years worth of data or compare the difference between two years. The Account Information window is a powerful feature that provides a quick and easy way to find the information you are looking for.

The Account Information window consists of three tabs:

- **Balances**
- **Budgets**
- **Journal Entries**

### Balances Tab

The **Balances** tab (*Figure 7*) is used to view and compare current and past balances for the selected account. This allows you to see account changes over time and quickly reference recent balance activity.

# Deposit Slips

**Menu:** [File](#) | [Open](#) | [Deposit Slips](#)  
**Home:** [All Actions](#) | [Journal Entries](#) | [Deposit Slips](#)  
**Quick Launch:** [Deposit Slips](#)

The Deposit Slips window is used to combine one or more receipt type transactions onto a single deposit slip for a bank account. Deposit slips are created after the journal entries have been made. Once created, you can print a **Deposit Summary** to take to the bank with the checks.

Creating a deposit slip with combined deposits makes it easy to reconcile deposits on your monthly bank account statement.

In the following figures, the firm has received four checks on the same day. Each check has been recorded in GL (as part of a separate transaction). Once the journal entries have been posted, the **Select Receipts** button (*Figure 14*) is used to open the **Select Receipts to Deposit** window (*Figure 15*) allowing you to select which receipts are to be included in the deposit.

The screenshot shows the 'Deposit Slips' window with the following fields and values:

- Deposit #: 16 (with a 'New' link)
- Deposit Date: 08/22/2024 (with a dropdown showing 'Monday')
- Deposit ID: 20220822
- GLS Account #: 1110.00 (with a dropdown showing 'Operating Account')
- Deposit Total: 30,105.75
- Status: Outstanding (with a dropdown)
- Buttons: 'Select Receipts...' and 'Print Deposit'

Below the form is a table titled 'Selected Receipts:' with the following data:

✓	Check #	Jrnl	Date	Reference	Description	Amount
✓	18542	1	08/22/2024		Referral Fee	25000.00
✓	CASH	1	08/22/2024		Payment	723.40
✓	3245	1	08/22/2024		Payment	1382.35
✓	CASH	2	08/22/2024		Rent Received - Sublease	3000.00

Figure 14, Deposit Slips window

✓	Check #	Jnl	Date	Reference	Description	Amount
	18542	1	08/22/2024		Referral Fee	25000.00
	CASH	1	08/22/2024		Payment	723.40
	3245	1	08/22/2024		Payment	1382.35
	CASH	2	08/22/2024		Rent Received - Sublease Sublease	3000.00

Figure 15, Select Receipts to Deposit window

The following fields are shown in the **Deposit Slips** window (Figure 14).

**Deposit #**

The **Deposit #** field acts as a unique identifier for the currently selected deposit slip. Pressing Enter will create a new deposit slip with the next available number.

**Deposit ID**

The **Deposit ID** field can contain up to 20 characters of information. By default, this field is populated with the date in yyyyymmdd format with the value representing the **Deposit Date**.

**Deposit Total**

The **Deposit Total** is a calculation based on the total amount of all receipts shown in the Selected Receipts area of the window.

**Check Mark (✓)**

The **Check Mark** indicates that a record has been selected to be included on the Deposit Slip and counted as part of the **Deposit Total**.

The **Print Deposit** button in the Deposit Slip window (Figure 14) can be used to print a **Deposit Summary** (Figure 16).

Date: 08/26/2024		<b>Deposit Summary</b> Jensen, Martin & Anderson		Page: 1

Figure 16, GL Deposit Summary

### ► To add a new deposit slip

1. In the Quick Launch, search for and select, "Deposit Slips."
2. In the Deposit Slips window, press Enter (or click ) to assign a new **Deposit #**.
3. Enter the **Deposit Date** and **Deposit ID**.
4. Select the desired bank account using the **GLS Account #** drop-down menu.
5. After specifying the **GLS Account #**, the **Select Receipts to Deposit** window will be displayed allowing you to select which receipts will be included in the deposit. Once the desired receipts have been selected and a check mark is displayed for those receipts, click **OK** to close the Select Receipts to Deposit window.
6. Verify the **Deposit Total**.
7. Click  to save the new deposit slip.
8. Click the **Print Deposit** button if you want to print a Deposit Summary.

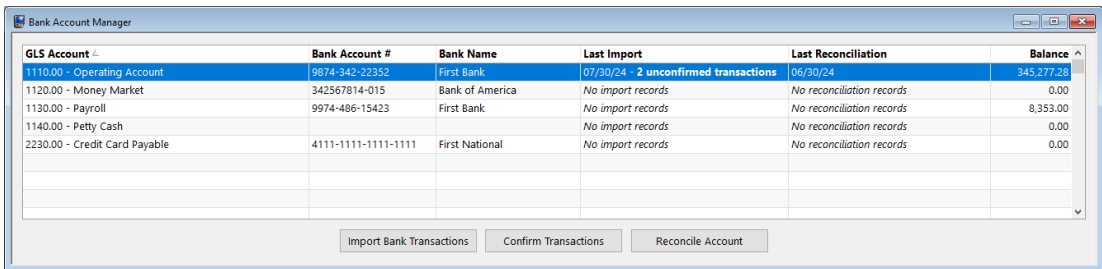

# Bank Account Manager

**Menu:** [File](#) | [Open](#) | [Bank Account Manager](#)

**Home:** [All Actions](#) | [Chart of Accounts](#) | [Bank Account Manager](#)

**Quick Launch:** [Bank Account Manager](#)

The Bank Account Manager provides a summary view of all of the bank accounts and credit card accounts in GL. From this window, you can view bank account/credit card account information, see the date of the last import and reconciliation performed for each bank/credit card account, and view the bank/credit card account's current balance. The Bank Account Manager also provides access to the Import Bank Transactions, Confirm Transactions, and Reconciliation windows.

GLS Account ▲	Bank Account #	Bank Name	Last Import	Last Reconciliation	Balance ^
1110.00 - Operating Account	9874-342-22352	First Bank	07/30/24 - 2 unconfirmed transactions	06/30/24	345,277.28
1120.00 - Money Market	342567814-015	Bank of America	No import records	No reconciliation records	0.00
1130.00 - Payroll	9974-486-15423	First Bank	No import records	No reconciliation records	8,353.00
1140.00 - Petty Cash			No import records	No reconciliation records	0.00
2230.00 - Credit Card Payable	4111-1111-1111-1111	First National	No import records	No reconciliation records	0.00

Import Bank Transactions   Confirm Transactions   Reconcile Account

Figure 17, Bank Account Manager

Only accounts configured with an **Account Type** of Bank Account or Credit Card will appear in the Bank Account Manager window. The **Account Type** is defined in the Account Setup window via the Chart of Accounts. Once you have designated an account as a bank account or a credit card account, the **Bank Info/Card Info** button will become available. This window allows you to specify the bank name, description, and account number for the selected account. You can also specify a password to use for PDF reconciliation reports generated by GL.

# Import Bank Transactions

**Menu:** *Maintenance | Import Bank Transactions*

**Home:** *All Actions | Utilities & Maintenance | Import Bank Transactions*

**Quick Launch:** *Import Bank Transactions*

The Import Bank Transactions window allows you to import information via a file from your bank or credit card company. File formats supported include the .OFX, .QFX, and .QBO file formats. During the import process, GL will automatically match the imported transactions with existing journal entries or deposit slips, and allow you to quickly create new journal entries or deposit slips based on the imported transactions. After transactions have been imported and matched, you can use the Confirm Transactions window to “confirm” each match and mark each matched transaction as Cleared. This saves you time when reconciling your bank account.

**Note:** More information on the Import Bank Transactions window can be found in GL Help.

# Reconciliation

**Menu:** [Maintenance](#) | [Reconciliation](#)

**Home:** [All Actions](#) | [Journal Entries](#) | [Reconciliation](#)

**Quick Launch:** [Reconciliation](#)

Tabs3 General Ledger's Reconciliation window makes it easy to reconcile bank and credit card statements against activity within GL. When starting the Reconciliation, the Reconciliation Settings window is displayed. From the Reconciliation Settings window, you can:

- Select the bank account or credit card account to reconcile
- Confirm the beginning balance automatically calculated by GL
- Enter the ending balance from your bank statement
- Enter interest and service charge information from your bank statement

Figure 20, Reconciliation Settings window

Once you have entered your Reconciliation Settings (Figure 20) the **Reconciliation** window (Figure 21) will be displayed. This window includes a list of outstanding journal entries and deposits, a section for tracking cleared totals, and a section for tracking reconciliation balances.

Statement Ending Balance:	237,003.75
Difference:	0.00

Settings Postpone Finalize

Figure 21, Reconciliation window

GL also includes an Undo Reconciliation utility, which allows you to reverse a reconciliation in order to make any necessary changes.

Undo Reconciliation

GLS Account #: 1110.00 Operating Account

Statement Date: 06/30/2024

Reconciliation Details

Bank Name:	First Bank
Statement Beginning Balance:	211,679.01
Cleared Total:	-5,679.83
Statement Ending Balance:	205,999.18

Undoing this reconciliation will delete the reconciliation record, and all journal entries included on the reconciliation will be available for reconciliation. Note that all cleared transactions will be retained. You will need to reconcile your previous statement again.

OK Cancel

Figure 22, Undo Reconciliation

**More Info:** For more information on the Reconciliation and Undo Reconciliation windows, see the GL Help.

# Recurring Entries

**Menu:** [File](#) | [Open](#) | [Recurring Entries](#)  
**Home:** [All Actions](#) | [Journal Entries](#) | [Recurring Entry](#)  
**Quick Launch:** [Recurring Entry](#)

The Recurring Entries window is used to simplify the task of creating journal entries for items that occur on a regular basis. Examples of recurring entries include rent payments, depreciation, amortization, monthly lease payments, etc. You can select a specific day of the month to post entries or post them using the day on which the **Post Recurring Entries** utility is run.

The screenshot shows the 'Recurring Entry' window. At the top, 'Recurring #' is set to 1 with a 'CHANGE' button. Below, a question asks 'What day of the month should this entry post?' with two options: 'Use this day of the month:' (selected) with a value of 15, and 'Use the Posting Date'. An 'On Hold' checkbox is on the right. The main area is a table with columns: Account, Debit, Credit, Description, Type, Check #, and Jnl Reference. It contains two entries for '1/12 Annual Depreciation'. The first entry is a debit to '1413.00 D - Accumulated Furniture & Fixtures De' for 121.97. The second entry is a credit to '8130.00 D - Depreciation' for 121.97. Below the table, a 'Subtotal by' section shows 'Balanced' with debits and credits of 121.97 each. At the bottom, a 'Check #' dropdown is followed by a summary row: Debits 121.97, Credits 121.97, Difference 0.00, and Subtotal for Check #: 0.

Account	Debit	Credit	Description	Type	Check #	Jnl Reference
1413.00 D - Accumulated Furniture & Fixtures De	121.97		1/12 Annual Depreciation	None	0	1 Depreciation
8130.00 D - Depreciation		121.97	1/12 Annual Depreciation	None	0	1 Depreciation
Balanced						

Subtotal by

Check #	Debits	Credits	Difference	Subtotal for Check #:
	121.97	121.97	0.00	0

Figure 23, Recurring Entry window

## ► To add a new recurring entry

1. In the Quick Launch, search for and select, "Recurring Entries."
2. Click .
3. Enter the remaining information for the recurring entry.
4. Click  to save the new recurring entry.

Recurring entries are typically posted once a month using the **Post Recurring Entries** utility. This utility creates journal entries for each item selected to post.

Select a Posting Date. The month and year of this date will be used for recurring entries that have a specific day of the month set.

Posting Date: 08/23/2024

The following recurring entries are available to post.

✓	Rec #	Description	Post Day	Last Date
✓	1	1/12 Annual Depreciation	15	mm/dd/yyyy

Post Close

Figure 24, Post Recurring Entries window

## **Additional Resources**

With its customizable Chart of Accounts, simple and intuitive data entry system, and informative reporting features, Tabs3 General Ledger offers a wide array of utilities for tracking financial information. This section includes additional resources and information on the features discussed in this guide.

### **Help**

The Help contains detailed information on all features of the software. The Help is accessible by pressing F1 from anywhere within the software; doing so will load the Help information for the particular feature being accessed.

### **Knowledge Base**

Tabs3 Software's extensive Knowledge Base is available 24 hours a day, 7 days a week. You can access the Knowledge Base in the Quick Launch by searching for and selecting "Knowledge Base." You can also access the Knowledge Base from any Internet-enabled device by navigating to:

**[support.Tabs3.com](http://support.Tabs3.com)**

### **Training Videos**

Training videos are multimedia resources that walk you through General Ledger features. All training videos are also accessible in the Quick Launch by searching for and selecting "Training Videos." The training videos can also be accessed at:

**[Tabs3.com/videos](http://Tabs3.com/videos)**

### **Report Pack**

The General Ledger Report Pack makes it easy to familiarize yourself with the various reports available and the criteria used to create them.

All guides and report packs are available on our website at:

**[Tabs3.com/support/docs.html](https://Tabs3.com/support/docs.html)**

## **Tabs3 Support**

Tabs3 Software provides some of the best support in the industry. Service to our customers is extremely important to us—so much so that our motto is:

***Reliable software. Trusted service.***

Support is provided at no charge with a maintenance plan and is available from 8:00 a.m. to 5:00 p.m. Central Time, Monday through Friday. If you have any questions, please feel free to call our Support staff at (402) 419-2210.

Email support is also available for all firms on maintenance. Our support team responds to emails during office hours. Our goal is to respond to your question within one business day. Please keep in mind that time-sensitive and complex issues are better handled over the phone. To request email support, visit **[Tabs3.com/support](https://Tabs3.com/support)**.
