Purpose of Guide

This ***Trust Accounting Guide*** covers the process of data entry and basic utilities in the Tabs3 Trust Accounting Software, including creating trust accounts, entering payees, and writing checks.

Additional guides for separate software features are also available. All guides are available on our Web site at:

Tabs3.com/support/docs.html

Introduction

Tabs3 Trust Accounting Software (TAS) was created as a tool to help law firms keep track of trust accounts that they manage. Checks written out of the trust check book, electronic funds transfers, and deposits made to the trust checking account are entered into the system providing current balance information for each individual trust account. Check registers can be printed for bank accounts, individual trust accounts, or payees. TAS will help you keep the strict control you need over trust accounts.

This guide is designed to provide information on day-to-day processes within the software, such as adding new trust accounts and printing checks. Instructions on initial configuration of the software, including how to configure startup files, enter beginning balances, and configure integration with other Tabs3 programs can be found in the ***Administrator Guide***.

Trust Accounts

Menu: *File | Open | Trust Account*

Task Folders: *Trust Accounts | Trust Accounts*

Trust accounts are individual records used to track activity for trust clients. Before you can begin entering trust transactions for a client, they must have a trust account configured.

When integrating Trust Accounting with Tabs3 Billing, client and contact information is mirrored between the two programs. Client information can easily be converted to trust account information using the **Trust Accounts** program. Additionally, adding a new trust account for a client that does not exist in Tabs3 will create client information in Tabs3 Billing.

When integrating with Tabs3 Billing, the Trust ID lookup window shows which matters already have a trust account defined. The Bank column indicates the bank account or the label "Tabs3".

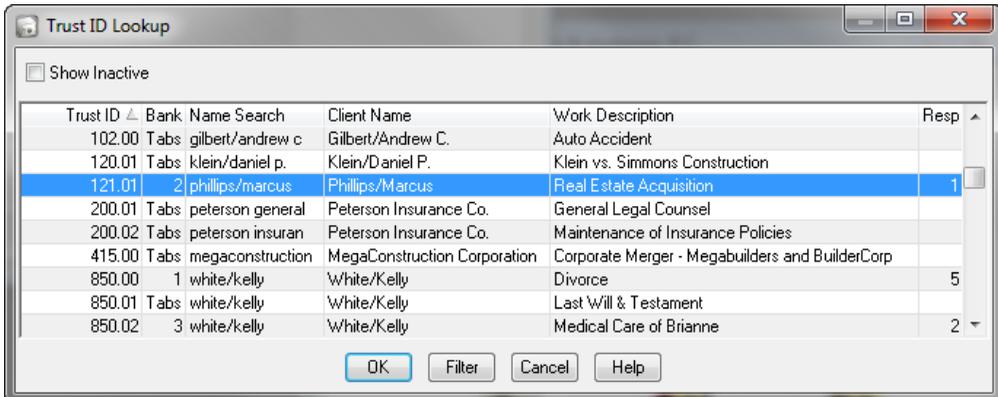

Figure 1, TAS Trust ID Lookup window

If using Trust Accounting without integrating with Tabs3 Billing, all trust account and contact information must be added directly into Trust Accounting.

The **Trust Accounts** window consists of two tabs: the **Address** tab and the **Balances** tab.

Address Tab

The **Address** tab consists of preliminary name and address information for the trust account.

The screenshot shows a software window titled "Trust Account Information" with two tabs: "Address" and "Balances". The "Address" tab is active. The form contains the following fields and values:

- Trust ID: 101.00
- Bank Account: 1 (First Bank IOLTA Account)
- Federal ID #: 12-3456789
- Client Name: Williams/John (John Williams)
- Work Description: State v. Williams
- Other*: 21225 Amberwood, Chicago IL 60662
- Name Search: Williams/John
- Contact Name: Williams/John (John Williams)
- Business: 770-598-2354x45691
- Home: 770-598-2442
- Mobile: (empty)
- Business Fax: (empty)

Figure 2, Trust Account Information **Address** tab

Trust ID

The **Trust ID** field is a unique identifier used to distinguish trust accounts for different client matters.

Bank Account

The **Bank Account** field identifies which bank account funds are being deposited to (or withdrawn from) when trust transactions are entered.

Federal ID

The **Federal ID #** field is used when 1099-MISC forms are to be generated for trust accounts. The number entered depends on whether the firm or the payee will be listed as the payer on the 1099 form.

The remaining fields on the **Address** tab are populated using data from the Contact file (*page 9*).

Balances tab

The **Balances** tab includes the trust account balance as well as additional account information.

The screenshot shows a software window titled "Trust Account Information" with two tabs: "Address" and "Balances". The "Balances" tab is selected. The form contains the following fields and values:

- Trust ID: 101.00
- Bank Account: 1 (First Bank IOLTA Account)
- Name: Williams/John
- Work Description: State v. Williams
- Date Opened: 08/16/2011
- Responsible Attorney: 2 (Paula Ann Martin)
- Current Trust Balance: 3,004.13
- Desired Minimum Balance: 2,000.00
- Activity... (button)
- Below a "Tabs3" section:
 - Amount to Bill: 0.00
 - Target Balance: 3,000.00

Figure 3, Trust Account Information **Balances** tab

Responsible Attorney

The **Responsible Attorney** field is used to designate the attorney responsible for the trust account. If integrating with Tabs3, the Responsible Attorney file will mirror the Tabs3 Timekeeper file.

Current Trust Balance

The **Current Trust Balance** displays the amount currently available in the trust account. This field defaults to 0.00 when a new account is created and updates each time a trust transaction is entered to the trust account.

Desired Minimum Balance

The **Desired Minimum Balance** field is used to define the balance you want to maintain in a client's trust account. If this field is set to an amount other than zero and a transaction is entered that brings the client's trust balance below the desired minimum, a warning will be displayed .

Activity

Clicking the **Activity** button displays a history of the trust account's last check, deposit, and EFT, along with the amounts of these transactions and the date the transactions were posted. Totals for all checks, deposits, and EFTs are also displayed.

Amount to Bill

The **Amount to Bill** field is used to enter a fixed amount to bill when a Tabs3 statement is run, provided that the trust account's **Current Trust Balance** is below the **Desired Minimum Balance**.

Target Balance

The **Target Balance** field is used in order to calculate a specific amount to bill when a Tabs3 Billing statement is run. The exact amount to bill amount is determined by the difference between the amount entered in the **Target Balance** field and the trust account's **Current Account Balance**, provided that the difference is not zero and the **Current Trust Balance** is not greater than or equal to the **Desired Minimum Balance**.

Example: Suppose that the Target Balance is \$500, the Desired Minimum Balance is \$600 and the Current Trust Balance is \$400. When a statement is run in Tabs3 Billing, Tabs3 Billing will compare the Current Trust Balance of \$400 to the Desired Minimum Balance of \$600. Since the Current Trust Balance is less than the Desired Minimum Balance, Tabs3 Billing will calculate the difference between the Target Balance and the Current Trust Balance (i.e., \$500 - \$400) and will print the message "Please Remit \$100.00" at the end of the statement.

The screenshot shows a software window titled "Trust Account Information". It has two tabs: "Address" (which is active) and "Balances". The "Address" tab contains several input fields and dropdown menus. The "Trust ID" field is set to "101.00". The "Bank Account" field is set to "1" with the text "First Bank IOLTA Account" next to it. The "Federal ID #" field contains "12-3456789". The "Client Name" field is "Williams/John" with a link "John Williams" next to it. The "Work Description" field contains "State v. Williams". Below this is a dropdown menu set to "Other*" and a text area containing "21225 Amberwood", "Chicago IL 60662". The "Name Search" field contains "Williams/John". The "Contact Name" field is "Williams/John" with a link "John Williams". At the bottom, there are four phone number fields: "Business" (770-598-2354x45691), "Home" (770-598-2442), "Mobile", and "Business Fax".

Figure 4, Trust Account Information

Steps for Adding a Trust Account

The exact steps used to create trust accounts differ slightly depending on whether you are integrating with Tabs3 Billing. You can use the following procedures to create a trust account:

- Adding a new trust account when using Tabs3 Billing and the client is in Tabs3
- Adding a new trust account when using Tabs3 Billing and the client is not in Tabs3
- Adding a new trust account when not using Tabs3 Billing

► To add a new trust account when using Tabs3 Billing and the client is in Tabs3

1. From the TAS Task Folders, click the **Trust Accounts** tab, and then click the **Trust Accounts** icon.
2. Click the drop-down button next to the **Trust ID** field to open the Trust ID lookup window.
 - a. Select the desired **Trust ID**. All Trust IDs with the text "Tabs3" in the Bank column indicate the client is in Tabs3 Billing but does not have a trust account created yet.
 - b. Click **OK**.
3. You will be returned to the Trust Account Information window.
 - a. Enter the **Bank Account**.
 - b. Enter the **Federal ID #** (if desired).

- c. If you want to edit any contact information, click the hyperlink to the right of the **Client Name** to open the Contact Information window. Enter the desired information and click  to save the contact. You will be returned to the Trust Account Information window.
- a. Click the **Balances** tab.
 1. The **Date Opened** defaults to the current date. Edit this date if desired.
 2. The **Responsible Attorney** defaults to the client's Primary Timekeeper from Tabs3 Billing. Edit this timekeeper if desired.
4. Click  to save the new trust account.

► **To add a new trust account when using Tabs3 Billing and the client is not in Tabs3**

1. From the TAS Task Folders, click the **Trust Accounts** tab, and then click the **Trust Accounts** icon.
2. Click  on the toolbar to accept the next available **Trust ID** or enter a unique, unused **Trust ID**.
 - a. Enter the **Bank Account**.
 - b. Enter the **Federal ID #** (if desired).
3. Enter the **Client Name** in Last/First format and press the Tab key.
 - a. In the Contact Information window, enter the contact information for the trust account.
 - b. Click  to save the new contact. You will be returned to the Trust Account Information Window.
4. Click the **Balances** tab.
 1. The **Date Opened** defaults to the current date. Edit this date if desired.
 2. Select a **Responsible Attorney** from the drop-down menu.
5. Click  to save the new trust account. The client will also be created in Tabs3 Billing.

► **To add a new trust account when not using Tabs3 Billing**

1. From the TAS Task Folders, click the **Trust Accounts** tab, and then click the **Trust Accounts** icon.
2. Click  on the toolbar to accept the next available **Trust ID** or enter a unique, unused **Trust ID**.
 - a. Enter the **Bank Account**.
 - b. Enter the **Federal ID #** (if desired).
3. Enter the **Client Name** in Last/First format and press the Tab key.
 - a. In the Contact Information window, enter the contact information for the trust account.

- b. Click  to save the new contact. You will be returned to the Trust Account Information Window.
4. Click the **Balances** tab.
 1. The **Date Opened** defaults to the current date. Edit this date if desired.
 2. Select a **Responsible Attorney** from the drop-down menu.
5. Click  to save the new trust account. The client will also be created in Tabs3.

A single **Trust ID** can be linked to multiple bank accounts by creating additional Trust Accounts.

► **Creating additional trust accounts for the same client**

1. After creating the first trust account, click the drop-down next to the **Bank Account** field.
2. Select the next bank account that the client has funds deposited to. The word "New" will appear next to the **Trust ID** field, indicating that the account is separate from the funds in the first bank account.
3. Make any necessary changes to the remaining information and click  to save your changes.

Contacts

Menu: *File | Open | Contact*

Task Folders: *Trust Accounts | Contact*

Contacts are the people or organizations you interact with in the process of doing business on behalf of the firm or your clients. The Contact file is used to store information such as name, phone number, address, and e-mail address.

The screenshot shows the 'Contact Information' dialog box with the following fields and values:

- Contact ID: St. Elizabeth Hospital
- Full Name: St. Elizabeth Hospital
- Organization: St. Elizabeth Hospital
- Business*: 555 S. 70th St., Lincoln NE 68510
- Business: 402-219-8000
- Business Fax: (empty)
- E-mail 1*: (empty)
- Web Page: www.saintelizabethonline.com
- Comments: (empty text area)

Figure 5, TAS Contact Information

More Info: A detailed explanation of contacts, including instructions on how to add, change, and delete contacts, can be found in the TAS Help or in the *Clients & Contacts Guide*.

Payees

Menu: *File | Open | Miscellaneous | Payee*

Task Folders: *Setup | Payees*

Payees are people or business entities to whom checks or electronic funds transfers (or EFTs) are paid. You can optionally print 1099-MISC forms for payees (*page 20*).

Figure 6, **Payee** tab

► To add a payee

1. From the TAS Task Folders, click the **Setup** tab, and then click the **Payees** icon.
2. Click  to determine if the payee exists. If not, close the **Payee Lookup** window and enter the payee name using a "Last/First" format for individuals and a "First Last" format for organizations.
3. Enter the information for the payee.
4. Click  to save the new payee.

Firm Payee

You can save time during data entry by creating a FIRM payee. The FIRM payee is used when writing checks from a client's trust account to pay for billing or other expenses owed to the firm. When integrating with Tabs3 Billing and Tabs3 General Ledger Software, the FIRM payee also creates a payment record in Tabs3 along with journal entries in GLS.

More Info: Complete instructions on creating a FIRM payee can be found in the TAS Help or the **Administrator Guide**.

Trust Transactions

Trust transactions make up the activity that establishes a trust account balance. The most common trust transactions are deposits and check transactions. TAS recognizes two types of checks. Handwritten checks, also known as *manual checks*, are entered into TAS with a check number. Checks to be printed from TAS are entered into TAS using a check number of 0. When the check is printed, the check number is automatically assigned.

The screenshot shows the 'Trust Transaction Entry' window with the following fields and values:

- Transaction: Tabs3
- Trust ID: 121.01 (Phillips/Marcus Real Estate Acquisition)
- Bank #: 2 (First Bank Interest Bearing)
- Reference: 8 (New)
- Type: Check (Check #: 4548, Save/Purge: Save)
- Date: 11/17/2014 (Amount: 461.29, Balance: 7,235.20)
- Description: Real Estate Taxes
- Memo: (empty)
- Payee Name: Lancaster County Treasurer (Add Payee: unchecked)
- Payee Address 1: 555 South 10th Street
- Payee Address 2: Lincoln, NE 68508
- Payee Address 3: (empty)
- User ID: (BLANK)
- Date Entered: 11/17/2014

Below the entry form is a 'Trust Transaction Entry List' for Trust ID: 121.01 and Bank #: 2:

Ref #	Date	Check #	Amount	Description	Payee
1	07/11/2014	Deposit	10000.00	Initial Deposit	
2	08/12/2014	4544	267.00	Payment of July Invoice	FIRM
3	09/05/2014	Deposit	12.17	Interest Earned for August	
4	09/30/2014	4545	167.50	Payment of August Invoice	FIRM
5	10/14/2014	EFT	443.75	Real Estate Taxes	D & B Real Estate M
6	10/31/2014	4546		Voided Payment of September Invoice	FIRM

Summary: Deposits: 10,012.17 Credit Cards: 0.00 EFTs: 443.75 Checks: 1,871.93 Amount: 7,696.49

Figure 7, TAS Trust Transaction Entry - **Transaction** tab

Trust Transaction Entry

Menu: *File | Open | Transaction*

Task Folders: *Checks/Deposits | Trust Transactions*

Trust Transactions tab

Five types of trust transactions can be entered using the **Trust Transactions** program. The **Transaction** tab is used to enter detailed information regarding each trust transaction.

More Info: Many of the fields in the Trust Transaction Entry program are self-explanatory. Those fields which require additional explanation are described below. The TAS help includes detailed descriptions of all fields used in the Trust Transaction Entry program.

Reference

The **Reference** field is used as a placeholder to identify individual transactions. This unique number can be used to retrieve transactions for editing purposes.

Type

The **Type** field is used to classify a transaction using one of five categories:

- Check - The **Check** transaction type is used to enter check transactions. If you select **Check**, you will be asked to enter a **Check #** and **Payee**. Check transactions reduce the trust account balance. Negative check transactions are not allowed.
- EFT - Select **EFT** to enter an electronic funds transfer transaction. If you select EFT, you can enter a Payee. Positive EFT transactions reduce the trust account balance. Negative EFT transactions are allowed, and will increase the trust account balance.
- Select **Deposit** to enter a deposit transaction. Positive deposit transactions increase the trust account balance. Negative deposits are allowed, and will decrease the trust account balance.
- Select **Credit Card** to enter a deposit transaction via a credit card when configured to perform credit card processing. Credit card transactions increase the trust account balance. Negative credit card transactions are not allowed.

More Info: Detailed information regarding credit card processing and credit card transactions can be found in the ***Tabs3 Credit Card Authorization Guide***.

Voided

Select **Voided** to enter a voided transaction. When a voided transaction is entered, it does not affect the bank account or the trust account balances. It will be saved with an amount of 0.00. This option is auto selected if a check is voided the TAS Void Checks program (*page 15*).

Save/Purge

The **Save/Purge** field is used to identify which transactions should be retained in the trust transactions file and which should be purged when the Purge Transactions program is run. **Save** is automatically selected when entering a new transaction.

Add Payee

The **Add Payee** check box is used to add a new payee to the Payee file without leaving the Trust Transactions program. If this box is selected when entering a trust transaction with a payee that does not exist in the Payee file, the payee will be added to the Payee file upon saving the record. Use this check box when the payee will be used more than once.

► **To add a new trust transaction**

1. From the TAS Task Folders, click the **Checks/Deposits** tab, and then click the **Trust Transactions** icon.
2. Click the **Trust ID** button and select the desired trust account.
3. Click  to enter a new transaction.
4. Enter the desired information for the trust transaction.
5. Click  to save the new trust transaction.

More Info: Additional steps are required for firms who are configured to enable credit card processing for payments through TSYS Merchant SolutionsSM. Detailed information can be found in the Credit Card Processing Guide.

If integrating with Tabs3, a Tabs3 tab will also be available. This tab is used to enter payment amounts that are posted to Tabs3 upon saving the transactions. This tab is only accessible when entering a transaction type of **Check** or **EFT** with a payee of FIRM.

Figure 8, TAS Trust Transaction Entry - **Tabs3** tab

The amount of the check/EFT transaction will be displayed in the **Total Amount** field. When an amount is entered in the **Amount** field for one of the Tabs3 transaction codes, the **Total Left to Apply** field will be adjusted accordingly. Once the entire check/EFT transaction is fully distributed amongst the desired Tabs3 transaction codes, the **Total Left to Apply** amount will be 0.00.

Printing and Voiding Checks

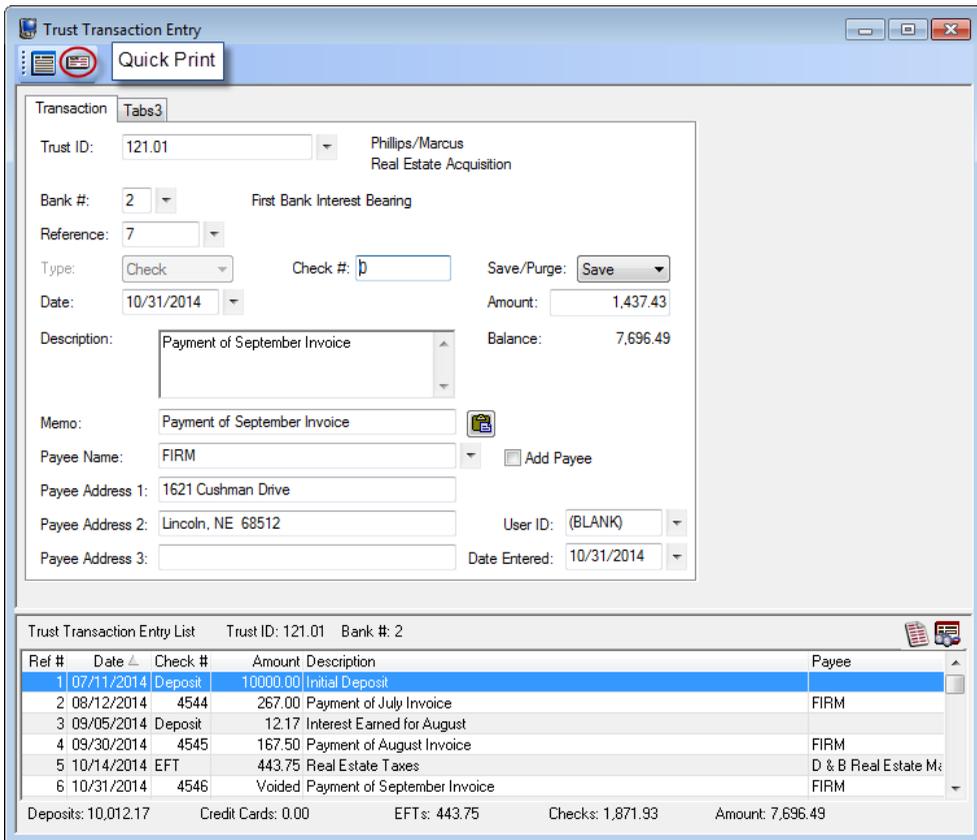

The **Print Checks** program is used to print trust checks for specified trust accounts. Only trust transactions with a check number of 0 are printed; checks with a check number other than zero are considered manual checks and will not be printed. Checks can be individually printed from the **Trust Transactions** program, or in batches from the **Print Checks** program.

Printing from the Trust Transactions Program

Menu: *File | Open | Transaction*

Task Folders: *Checks/Deposits | Trust Transactions*

You can print a check directly from the **Trust Transactions** program using the **Quick Print** function. Simply select an unpaid check transaction and click  **Quick Print** to display the printer prompt.

Figure 9, TAS Trust Transactions **Quick Print** option

Printing from the Print Checks Program

Menu: [Checks | Print Checks](#)

Task Folders: [Checks/Deposits | Print Checks](#)

The Print Checks program consists of two tabs: the **Trust Accounts** tab and the **Transactions** tab.

The **Trust Accounts** tab allows you to select trust accounts by specifying ranges of trust accounts, bank accounts, responsible attorneys and open dates.

The screenshot shows the 'Print Trust Checks' dialog box with the 'Trust Accounts' tab selected. The dialog has a title bar with standard window controls. Below the title bar are two tabs: 'Trust Accounts' (selected) and 'Transactions'. The main area contains several input fields and dropdown menus for filtering trust accounts:

- Trust ID:** A text box followed by a dropdown arrow and a 'Thru:' field with another dropdown arrow and a 'Multiple...' button.
- Name Search:** A text box followed by a 'Thru:' field with a dropdown arrow.
- Bank Account #:** A text box followed by a dropdown arrow and a 'Thru:' field with a dropdown arrow.
- Responsible Attorney:** A text box followed by a dropdown arrow and a 'Thru:' field with a dropdown arrow.
- Open Date:** A text box with a dropdown arrow showing 'mm/dd/yyyy' followed by a 'Thru:' field with a dropdown arrow showing 'mm/dd/yyyy'.

 On the right side of the dialog, there are five buttons: 'OK', 'Cancel', 'Load', and 'Save'.

Figure 10, TAS Print Trust Checks - **Trust Accounts** tab

The **Transactions** tab allows you to select trust transactions by specifying ranges of dates.

The screenshot shows the 'Print Trust Checks' dialog box with the 'Transactions' tab selected. The dialog has a title bar with standard window controls. Below the title bar are two tabs: 'Trust Accounts' and 'Transactions' (selected). The main area contains several input fields and checkboxes for filtering transactions:

- Date:** A text box with a dropdown arrow showing 'mm/dd/yyyy' followed by a 'Thru:' field with a dropdown arrow showing 'mm/dd/yyyy'.
- Save/Purge:** A group box containing three radio buttons: 'Save', 'Purge', and 'Both' (which is selected).
- Check Number:** A text box followed by a 'Thru:' field with a dropdown arrow.
- Type:** A group box containing three checked checkboxes: 'Checks', 'Deposits', and 'EFTs'.

 On the right side of the dialog, there are five buttons: 'OK', 'Cancel', 'Load', and 'Save'.

Figure 11, TAS Print Trust Checks - **Transactions** tab

More Info: Detailed information on the Print Checks program can be found in TAS Help.

Void Checks

Menu: [Checks](#) | [Void Checks](#)

Task Folders: [Checks/Deposits](#) | [Void Checks](#)

Manual checks and checks that have already been printed cannot be deleted but instead must be voided. This process is performed using the **Void Checks** program. Voiding a check updates the bank account balance as well as the balance of the trust account to which the check was written.

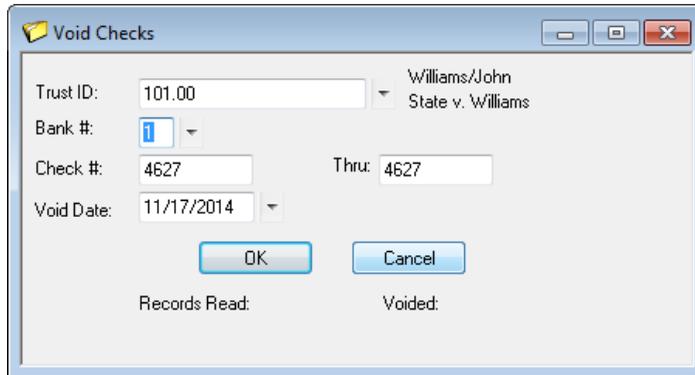

Figure 12, TAS **Void Checks** program

Reconciliation

Menu: [Checks | Reconciliation](#)

Task Folders: [Checks/Deposits | Reconciliation](#)

The TAS **Bank Account Reconciliation** program allows you to reconcile your bank account statement to the activity that has been entered in TAS for the bank account. All transactions including checks, EFTs and deposits are reconciled.

Upon opening the **Reconciliation**, you will be prompted to enter information about the bank account, including bank account number, beginning and ending statement balances, and statement cut-off date.

Figure 13, TAS Reconciliation settings

Enter the required information for the bank account(s) you wish to reconcile and click **Start**. A list of transactions meeting the criteria entered will be displayed.

1099 Report

Menu: [Reports](#) | [1099 Information](#) | [1099 Reports](#)

Task Folders: [1099](#) | [1099 Reports](#)

TAS allows you to generate IRS 1099-MISC forms on behalf of your trust accounts. 1099s are written to the payee, whereas the payer can be either the trust account or the firm. The payer is determined by the Federal ID number entered for the trust account. If the trust account's Federal ID number matches the firm's Federal ID number, the firm will be the payer. If the trust account's Federal ID Number does not match the firm's Federal ID number, then the trust account will be the payer. The **1099 Report** is used to verify 1099 information before printing 1099 Forms.

The **Trust Accounts** tab allows you to select trust accounts by specifying ranges of trust accounts, bank accounts, responsible attorneys and open dates.

The screenshot shows the '1099 Report' dialog box with the 'Trust Accounts' tab selected. The 'Options' sub-tab is also active. The form contains several input fields and buttons:

- Trust ID:** A dropdown menu followed by a 'Thru:' dropdown menu and a 'Multiple...' button.
- Name Search:** A text input field followed by a 'Thru:' text input field.
- Bank Account #:** A dropdown menu followed by a 'Thru:' dropdown menu.
- Responsible Attorney:** A dropdown menu followed by a 'Thru:' dropdown menu.
- Open Date:** A date picker set to 'mm/dd/yyyy' followed by a 'Thru:' date picker set to 'mm/dd/yyyy'.
- Buttons:** 'OK', 'Cancel', 'Load', and 'Save' buttons are located on the right side of the dialog.

Figure 16, TAS 1099 Report - **Trust Accounts** tab

The **Options** tab allows you to select the **Reporting Year** for which you are filing, a range of payees for whom to run the report, and a **Minimum YTD Amount to Print**.

The screenshot shows the '1099 Report' dialog box with the 'Options' tab selected. The form contains several input fields and checkboxes:

- Report Date:** A date picker set to '11/17/2014'.
- Reporting Year:** A text input field set to '2013'.
- Payee:** A dropdown menu followed by a 'Thru:' dropdown menu.
- Minimum YTD Amount to Print:** A text input field set to '600'.
- Type:** Radio buttons for 'Detail' and 'Summary' (selected).
- Checkboxes:** 'Start Each Trust Account on a New Page' and 'Print Criteria Page'.
- Buttons:** 'OK', 'Cancel', 'Load', and 'Save' buttons are located on the right side of the dialog.
