Tabs3 Announces New Integration with ProPay®

ProPay empowers law firms to process payments seamlessly within Tabs3

Lincoln, NE – January 21, 2016 – Software Technology, Inc., the maker of Tabs3 and PracticeMaster, announced a new relationship with ProPay, a TSYs® company. In the latest update to Tabs3 software, clients can accept debit cards, credit cards, and electronic funds transfers and avoid entering payments twice. Clients can sign up with easy to understand, low rates, and most can start accepting cards within minutes without the need to wait days for traditional account underwriting.

“Teaming with ProPay makes it quick and easy to accept credit cards, and law firms should spend less time on collections and reduce write offs by accepting credit cards,” said Dan Berlin, President of Software Technology, Inc. “For over 35 years, we have worked hard to develop reliable, quality software for law firms, and using Tabs3 helps make getting paid quick and easy.”

“Client billing is the lifeblood of any law firm,” said Ryan Oakes, chief operating officer of ProPay. “Integrating ProPay payment services with Tabs3 gives law firms greater efficiency and productivity while providing peace of mind that their transactions are secure.”

Tabs3’s integration with ProPay is a Version 18 feature. Version 18 also includes new ways to save time through enhanced reconciliation, bank transaction import capabilities, and improved trust accounting features. The reconciliation process in Version 18 has been completely redesigned to have fewer steps and make any discrepancies easier to understand, helping clients reconcile their accounts faster. Further, clients can save time and prevent the possibility of human error by importing transactions from their bank’s website directly into Tabs3 General Ledger and Trust Accounting software. Finally, with the improvements to Tabs3 Trust Accounting, it’s even easier to keep clients’ trust account balances in check.
