Tabs3 Software Releases Version 19 – Combines New Look with Decades of Experience

Lincoln, NE – September 4, 2018 – Software Technology, LLC is excited to announce the release of Version 19 of Tabs3 Software. This release features a new modern look and new tools to help firms stay organized, which especially reduces the stress of the end-of-month billing processes. Tabs3 Version 19 also has new features that make it even easier to get paid quickly so firms can focus on practicing law.

"Version 19 of Tabs3 Software is the culmination of serving law firms for forty years. We have developed a close relationship with many of our clients and industry consultants. Insight from these relationships has helped us to develop Version 19 with the precision and flexibility that modern law firms need." said Dan Berlin, President and CEO of Software Technology, LLC."

Version 19 updates the look and feel of all Tabs3 Software products. The enhancements range from new colors and screens that take advantage of the space of larger monitors, to a home page with easier access to the features you use most, and tabbed features that make it easy to multi-task as things come up during the day.

PracticeMaster helps attorneys provide structure for even the busiest days. The new PracticeMaster Dashboard displays upcoming calendar events and tasks so attorneys can quickly check in on what their day holds. The Dashboard also includes a Recap of Hours graph to provide attorneys with a quick reference of their worked hours and serves as a great reminder to add billable hours as they work throughout the week.

Tabs3 Billing has added features to making getting bills out easier, and features to give firms even more flexibility in how they bill and what they include in reports. Firms can now include a payment link in emailed statements so that clients can easily pay their bills online.
