Tabs3 Software Releases Version 2021 – Helps Firms Be Even More Organized

Lincoln, NE – December 15, 2020 – Software Technology, LLC is excited to announce the release of Version 2021 of Tabs3 Software. This release features a fresh icon set and new features to enhance organization and productivity.

“Version 2021 continues our ongoing commitment to providing features that will help firms stay more organized and be more productive. Our recent dashboards and key integrations provide firms with greater tools and insights into their businesses. We are continually improving our products with features that enhance the end user experience,” said Dan Berlin, President and CEO of Software Technology, LLC.

Version 2021 continues to update the look and feel of all Tabs3 Software products by giving the software an even more modern appearance with new icons throughout My Actions, All Actions, and Tabs3 Connect, which provides mobile access.

With over forty years of experience in the legal industry, we understand what tools firms need to build successful practices. With this new version, we are continuing to enhance the Tabs3 Billing Matter Manager. Not only does the Matter Manager allow you to easily track your matter’s accounts receivable, work-in-process, and fund balances, it now also provides quick access to a list of the matter’s write offs.

New color-coded indicators in the Matter Manager help you quickly determine aging information for unpaid statements. And in the Statement Manager, a new Send Email link is available if you want to resend a copy of a statement to a client.

Tabs3 Trust Accounting and Accounts Payable features include updates to support new requirements from the IRS for the 2020 tax year.
